

THE SUPRAPLUS TELEPHONE HEADSET FAMILY

The gold standard in performance and comfort—even for the most phone-intensive applications—the SupraPlus series has been trusted by enterprises around the world for years.

The Plantronics SupraPlus telephone headset family continues to set the standard for durable, lightweight corded headsets, designed for contact center and office professionals.

- Business-critical reliability and comfort. SupraPlus not only meets or exceeds all specifications set by our existing world-class professional headsets, this family of headsets delivers superior all-day, every-day comfort and reliability.
- Get professional sound and all-day comfort with the world's most trusted corded headset, and take call quality to the next level when you add a Plantronics amplifier featuring Clearline™ audio technology.
- Stylish, lightweight design. The light flexible cable and comfortable headband design, as well as the bendable noise-canceling microphone boom, work to enhance audio quality and the user experience.
- Plantronics compatibility. With Plantronics Quick Disconnect™, SupraPlus works with all Plantronics amplifiers and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.

H261N SupraPlus binaural noise-canceling headset

SupraPlus Key Features and Benefits

- The gold standard in all-day comfort and reliability. SupraPlus expands on the classic corded professional headset style and functionality.
- Improved receive-side audio quality. A greater receive-side frequency response improves listening intelligibility.
- Comfortable, lightweight design. Adjustable headband, foam ear cushions and comfort T-Pad design create a stable, comfortable fit.
- Bendable click-stop microphone boom. Stays in position for clearer voice transmission.
- Small, light, flexible cable. Designed for lightweight durability, with a single-cable design for binaural models.
- Quick call feature. Headband twists out of the way for convenient quick call pick up.
- Monaural or binaural styles. Monaural lets you hear the conversation and what's going on around you. Binaural cuts out distracting background noises.
- Voice tube and noise-canceling microphones. Voice tubes are lightweight and unobtrusive, and noise-canceling microphones allow clear conversations in noisy environments. New wideband models feature an extended boom for improved noise-canceling and echo performance.
- H-Series or Polaris™ models. For compatibility with Plantronics amplifiers, USB-to-headset adapters, headset-ready phones and agent consoles.

New SupraPlus Wideband Models

- SupraPlus Wideband models take advantage of the latest wideband VoIP technologies. Available in both voice tube and extended boom noise-canceling models, they feature new wideband receivers to deliver improved speech clarity and life-like fidelity—which helps to decrease listening errors, repeats and listener fatigue. For wideband VoIP systems only.
